Bandc Basket

Bandc Basket is a handcrafted storage basket carefully made by skilled artisans in Japan.

Designed with the intention of bringing beauty and functionality to homes around the world, it features a clever structure that can be flattened when not in use. By fastening or unfastening the snap buttons, it transforms between a round basket and a flat shape, offering both versatility and convenience.

Available in 10 size variations—three widths (S, M, L) combined with four heights—it suits a variety of needs, from organizing small items to storing bulky goods. You can choose from 18 models: 10 without handles and 8 with handles.

The color lineup includes 10 soft, harmonious shades that blend effortlessly into any interior style or lifestyle.

Each crossing point of the material is securely bonded, giving the basket an exceptional balance of lightness, flexibility, and strength. Our unique manufacturing method, inspired by traditional Japanese woodblock printing techniques, uses precision molds to ensure dimensional accuracy and a consistent grid pattern. These molds are created using modern laser-cutting technology, bringing together tradition and innovation.

Unlike many natural material baskets, the Bandc Basket is free from splinters or fraying, making it gentle on your hands and safe for delicate items inside. The softly rounded shape adds a feeling of safety, making it a reliable choice even for families with young children.

Its natural texture and simple form make it a versatile piece that fits seamlessly into any room. Whether used for storing loungewear and blankets or as a decorative cover for plant pots, it offers both utility and style. With its timeless design and durable construction, the Bandc Basket is a sustainable choice for modern living.

About the Material

Bandc Basket is made from washi band—a strong paper material created using Japan’s rich water resources. The raw material is recycled pulp, repurposed from offcuts generated during milk carton production, making it an environmentally friendly choice.

Washi band has its roots in mizuhiki, a traditional Japanese cord-making technique with a history of over 1,000 years. It is a material trusted for its safety, even in food packaging.

The washi is twisted into paper strings and bonded together into durable bands. This process results in impressive tensile strength—strong enough to tow a car.

The surface is coated with a thin layer of PVA resin (used in the adhesive), which adds light water resistance. This helps prevent dirt from sticking, keeping the basket clean over time. It’s even suitable for use as a laundry basket.

Bandc Tissue Case

A natural-material tissue case that fits most sizes

Bandc Tissue Case features a simple design that blends seamlessly into any interior, elegantly storing tissues that often bring an unwanted sense of clutter.

Tissues are used not only for blowing your nose, but also for skincare, makeup, quick clean-ups, or even as a substitute plate for snacks—serving countless roles in daily life.

As their uses have expanded, so too have consumer needs for softness, moisturizing properties, and compact sizing, resulting in a wide variety of box shapes and sizes on the market.

To solve the common frustration of “my favorite tissues don’t fit,” we tested compatibility with over 100 types of tissue boxes available in Japan. The result is a case that accommodates a wide range of sizes with exceptional ease of use. Available in five sizes and ten colors, you can find the perfect match for your space and style.

Features

Simple Elegance

A refined, minimalist design that reduces visual clutter and fits naturally into any setting. Slim profile of approx. 3 mm saves space wherever it is placed.

Ease of Use & Safety

Lightweight yet remarkably durable, providing stability when pulling out tissues. Free from rough edges or sharp corners, making it safe for children. Its elasticity also helps prevent damage to floors or furniture if accidentally dropped.

Sustainable Everyday Tool

Built to last, reducing waste and supporting a sustainable lifestyle.

FCA (Free Carrier) delivery at a designated warehouse in Japan (except Okinawa) is available upon request.

4. Payment Terms

Preferred methods: Payoneer or Wise. The full invoice amount must be paid without deductions.

Bank transfer (T/T in advance) is also accepted; however, all transfer fees (including sender, receiver, and intermediary bank charges) must be borne by the buyer, and any shortfall will be re-invoiced.

5. Minimum Order and Assortments

Minimum order quantities (MOQ) apply as specified in the quotation or price list.

Assortments of models and colors are available as indicated in the price list.

6. Lead Time

Standard production lead time: normally 3–6 weeks after order confirmation.

For large-volume orders, lead time may extend up to 8 weeks depending on the production schedule.

7. Quality and Warranty

All products are handmade and may have slight variations in color or dimensions.

No warranty is provided for misuse, mishandling, or exposure to moisture.

8. Cancellation and Returns

Orders cannot be canceled once production has started.

Returns are not accepted unless products are proven defective upon arrival.

Claims for damage or shortage must be submitted to us in writing within 7 days of receipt.

9. Governing Law

These Terms shall be governed by and construed in accordance with the laws of Japan.

Any disputes arising out of or in connection with these Terms shall be submitted to the exclusive jurisdiction of the Morioka District Court.
